

~1 GALLON / 4L

AFTER EXPANSION SIZE

~2 GALLON / 8L

AFTER EXPANSION SIZE

NUTRIENT APPLICATION RECOMMENDATIONS

Apply nutrient solution until fully expanded and runoff appears. For full expansion, expect to use approximately 3-4L for the 4L Coco FLEX and approximately 6-7L for the 8L Coco FLEX. Slow application helps with a thorough expansion.

VOLUME	DRY COMPRESSED SIZE	AFTER EXPANSION SIZE	UNITS PER BOX
~1 GALLON (4 LITER)	5" x 5 1/2" x 1 5/8"	5 1/2" x 6" x 6 1/4"	40
~2 GALLON (8 LITER)	7 1/8" x 9 1/8" x 2 1/4"	7 1/2" x 9 3/4" x 6 1/2"	20

CANNA COCO FLEX is a natural and clean growing medium that provides a ready to use solution for large scale facilities. This product consists of compressed high quality coco coir in an open top grow bag. The convenience of the grow bag reduces labor, storage, costs and overall improves standardization in your garden!

COCO SPECIFICATIONS & PACKAGING

- Carefully washed, EC below 1 mS/cm (1:1.5 extraction)
- Balanced pH: 5.5-7.5
- 2 holes for irrigation drippers in the cube to facilitate the expansion of cubes on large scale
- Consistent particle sizes, 100% Coco pith
- Easy to expand
- Consistent volume per cube
- White outside/black inside from UV stabilized plastic
- Drainage holes punched
- High edges to avoid the overflow during watering and handling

CANNA COCO FLEX production is subject to strict quality control. All cubes are traceable to the source and come with corresponding quality control certificates.
